Urban Compost Project

Food Scrap Pickup and Composting Service

BASIC TERMS AND CONDITIONS

1. Urban Biologist Bali will provide bucket for accommodating food scrap produced by member. The bucket is 8 Liters, come with the lid. Once they are picked, Urban Biologist Bali will give back new clean buckets as many as we take.
2. All food scrap can go in to the bucket, without exception. Please contact admin if there is any question.
3. However, together with all non-organic materials (plastics, papers, glass, etc.), we cannot allow any **tissue paper** go in to the bucket.
4. Number of bucket provided will be based on request by member. Thus, you need to rough estimate how many food scrap generated per day.
5. Pickup will be done once a week, which is every Sunday.
6. There are plan packages of price based on number of buckets and your location:
 - A. Canggu (Batu Bolong, Babakan, Berawa)
 - 1 buckets: Rp 35.000/month
 - 2-3 buckets: Rp 55.000/month
 - 4-5 buckets: Rp 95.000/month
 - B. Out of Canggu (Bumbak, Anyar Kelod, Padonan, Tumbak Bayuh, Pererenan)
 - 1 buckets: Rp 55.000/month
 - 2-3 buckets: Rp 85.000/month
 - 4-5 buckets: Rp 135.000/month
7. Payment should be made in advance, and the next payment will be charged on every 25th of the month.
8. The finished compost, up on request, will be given back to member. Otherwise, can be donated to local farmers or local school.
